## **TrueSense Installation Procedure**

## I. Download APP from the website

- 1. Create file on desktop (recommend naming the folder "OPI").
- 2. Enter <u>www.op-innovations.com</u> website. Find "APP Corner" on menu bar and download "OPI Console and SDK download...App". Place downloaded APP into the new folder and save.

- 3. Decompress the downloaded file.
  - a. Open OPI folder;

b. Extract files;

c. All files are located in OPI folder.

## II. Installation of the device driver

1. Plug the device (with Bio-sensor, memory and Controller connected) into the computer USB slot. (<u>Note</u>: batteries facing same direction)

Click the "Start"menu button  $\rightarrow$  "Control Panel"  $\rightarrow$  "Hardware and Sound" (or "Device Manager")  $\rightarrow$  "Device Manager".

Note: Illustration of Connection

(1) When Sensor, Memory and Controller are connected: Batteries are in the same direction.

(2) When Sensor and Controller are connected: Batteries are in the opposite direction.

2. Double click the "Other devices"; the device name appears as "OPIUCE", double click "OPIUCE".
